

EAGLE ISLAND LODGE

A BELMOND SAFARI
BOTSWANA

*The ultimate Okavango Delta
experiential lodge*

OUR LODGE

Set on remote Xaxaba island, on the passage routes of many species, our lodge has long been the ideal base from which to explore the Okavango Delta's network of waterways and islands. Its design captures the spirit of the Delta, blending cleverly into the landscape while offering super-stylish facilities and contemporary comforts.

When the Delta's flooded, usually between June and September, the water wonderland comes to life and is best explored by boat*. In the drier months, activities include game drives, night drives, nature walks, village visits and an exhilarating horseback and helicopter safari.

**Water activities are seasonal, water levels high from June to September.*
