CHRISTIAN DIOR IN VENICE

Christian Dior discovered Venice in the dazzling cultural revival of the 1950s, when the city once again became the stage for the world's most spectacular celebrations. His Venetian story truly began with Le Bal du Siècle, the legendary masquerade hosted by Charles de Beistegui in 1951, a night of opulence, imagination, and artistic brilliance that marked Dior profoundly.

From that moment on, Venice revealed itself to him as a place where beauty is not merely seen but performed. The palaces rising from the lagoon, the chandeliers glittering above grand ballrooms, the masks, brocades, and golden mosaics all formed a living theatre of elegance and enchantment.

In this city of fêtes and fantasy, Dior rediscovered everything he loved: craftsmanship elevated to art, the exuberance of celebration, and the irresistible power of dreams. Venice became his muse, a realm where fashion met spectacle, and every reflection on the water seemed to promise a new creation.

For Christian Dior, Venice was never just a destination. It was a stage, a source of wonder, and a shimmering dialogue between heritage and imagination, an eternal invitation to celebrate beauty in all its forms.

THE ART OF MEASUREMENTS

THE DIOR HAUTE TECHNOLOGY

Without compromising on sensorial experience, they offer the ultimate experience of beauty and well-being. In the spirit of high-precision well-being, Dior Spa Hotel Cipriani harnesses cutting-edge technologies to visibly rejuvenate and repair skin that has been challenged by urban lifestyle. In this mythical location, the House unveils its most advanced technologies, for an even more expert approach to beauty..

THE SCIENCE OF HAUTE WELLNESS

MECHANICAL ACTION

MICROSTIMULATION

By stimulating every millimeter of the skin, this technology stimulates tissues, promoting a sensation of deep relaxation and resulting in a healthy glow. The skin feels revitalised, energised and visibly smoother.

HYDRA-DERMABRASION

Advanced vortex technology infuses the skin with active ingredients to purify, exfoliate and reveal radiance, while diminishing unwanted blemishes.

LIGHT WAVES

LED TECHNOLOGY

LED mask acts as a gentle energy source, helping to improve the appearance of the complexion. The skin appears visibly plumper and more radiant with a refined texture.

COLD LASER

Photo Pressure combines gentle vacuum pressure with the synergistic power of Low Level LED Light, Low Level Cold Laser light and Infrared Light to promote skin comfort and well-being, leaving the skin visibly firmer, smoother and more radiant.

MICROCURRENT

This non-invasive technology gently works on facial muscles, promoting a visibly lifted and toned appearance for a more youthful-looking complexion.

ULTRASOUND

Ultrasound works through micro-vibrations to optimise the skin's receptivity to active ingredients, enhancing a visibly youthful appearance. Thanks to the gentle action of sound waves, the complexion appears visibly more refined, radiant and rejuvenated.

BIOTECHNOLOGY

OXYGEN & NEGATIVE IONS THERAPY

Oxygen spray provides a refreshing boost to the skin while optimising product penetration, for a visibly more radiant scalp and face.

SIGNATURE TREATMENTS

THEATRE CORPOREL

BODY – 90 MIN

Benefits: Emotional Grounding | Energetic Rebalance | Structural Alignment

Rooted in Ayurvedic philosophy, this four-hand ritual unfolds as a dialogue of touch, an encounter where precision meets intuition, and two Dior Wellness Experts move in perfect harmony. Guided by a shared rhythm and intention, their four hands work as one to restore balance, reconnect body and mind, and create a deep state of inner balance.

The journey opens with the prologue: a rosewood polish from Dior Gardens, a delicate awakening that smooths the skin and grounds the spirit. The warm, woody notes awaken the senses, anchor the body, quiet the mind, and guide towards a sense of surrender, a soft threshold before the first act truly unfolds.

In this theatre where every actor has a crucial role to play, the guest is not merely a passive spectator. He steps into the scene through guided breath and silent invocation, favoring the circulation of energy and reconnecting the body’s rhythm to a deeper stillness.

The first act unfolds as warm aromachological oils glide in perfect synchrony, guided by the precise, intuitive gestures of the Dior Wellness Experts. Their touch both enveloping and weightless melts tension, awakens flow, and restores a sense of inner vitality.

The second act nurtures surrender with a deep fascia release, a choreography of frictions that unify muscle chains, strengthen connective links, and restore the body’s innate balance. Structure and energy realign in perfect resonance.

The curtain closes after gentle, mindful stretches, softly awakening the limbs and encouraging circulation. This prologue is a serene return to presence: the body is anchored, luminous, and whole.

A conversation between strength and softness, silence and breath, where Dior transforms touch into a living art of renewal.

DIOR METHODS EMPLOYED: Guided breathing | Rose Body Scrub | Les Huiles Aromachologiques | Four Hands Massage | Fascia Therapy | Stretching

MASCARADE

FACE – 90 MIN

Benefits: Skin Renewal | Radiance | Lift | Sculpt | Reoxygenation

A sensory journey where technology and touch intertwine, progressively revealing the face like a Venetian masquerade. Layer by layer, each gesture unveils a new radiance as glow emerges from beneath the mask.

The ritual begins with a gut-brain axis induction, a gentle abdominal stimulation that restores inner balance and releases deep-seated tension. The skin is then prepared with the Dior Skin Led Light, where targeted light energy awakens skin vitality and primes the complexion for the ritual ahead.

To visibly enhance skin quality, Diamond Abrasion technology gently cleanses the face, removing accumulated impurities before the ritual deepens with a myofascial release. By working on the fascia that supports and envelops the muscles, this technique releases built-up tension, favours tissue elasticity, and reveals a visibly lifted, luminous complexion.

Le Grand Masque, Dior Prestige is applied, enhanced by Biosonix technology, combining ultrasound and LED to visibly revitalise the appearance of the skin, promoting a more radiant look.

The ritual continues with a deep, enveloping massage across the face, jawline, neck, and shoulders. Skilled hands and microcurrent stimulation work in concert to promote a sensation of facial toning, helping to refine contours and provide a visibly tighter and brighter appearance.

The ritual concludes with Le Masque Frais, a fresh mask activated with oxygen spray, delivering visible hydration and a plumping effect. Targeted cryo-therapy provides a tightening and de-puffing sensation along a sense of lifted freshness, resulting in a visibly more glowy and luminous skin.

This meticulous work on skin texture and posture creates the ideal foundation for a complete glam ritual, preparing the face to receive makeup with effortless grace and long-lasting luminosity.

DIOR METHODS EMPLOYED: Abdominal Stimulation | Ultrasound | Microdermabrasion
| Microcurrent | LED Mask | Cryotherapy | Oxygen Mask | Muscular Massage

GRAND BAL

SCALP, FACE, HANDS &/OR FEET, HAIR – FROM 120 MIN TO 240 MIN*

Care Benefits: Healthy Scalp | Instant Glow | Makeup-ready Skin | Hand &/or Feet Care

Glam Benefits: Impeccable Hair | Long-lasting makeup | Nail Polish Application

This bespoke treatment is a harmonious journey that combines expert artistry with sensory rituals, creating the perfect balance between care and glamour. Conceived to be flexible, the experience may be embraced in a single flow or experienced across two separate moments, adapting to the guest's request.

Within the intimacy of the cabin, the experience begins with a reviving scalp treatment, a soothing parenthesis combining hydradermabrasion with a stimulating massage designed to promote scalp comfort, invigorate the senses, release tension and restore calm. This preparatory ritual lays the foundation for the hair styling to come in the Salon, nurturing both scalp and mind in a state of deep relaxation.

A facial follows, visibly refining and purifying the skin for an immediate sensation of glow and preparing it for the makeup to follow. As the face is gently exfoliated to cleanse impurities, the hands are simultaneously tended to, ensuring they are not left astray. Exfoliation, hydration, nail shaping, a delicate massage and a polish refresh come together in a complete manicure ritual, leaving the hands &/or feet soft, polished and effortlessly refined.

Beyond the cabin awaits the Salon, a new setting for pampering. Here, hair is styled according to each guest's desire, from a shampoo and blow-dry to a fully personalised finish shaped around individual preferences and occasion. A professional makeup session follows, a tailored moment to create a look that reflects personality and tastes, from effortless elegance to spectacular evening glamour. Thanks to expert attention to details, it reveals radiance and confidence.

To complete the entire silhouette, a delicate touch of perfume is then applied, enhancing presence with a subtle and memorable trail.

With up to three dedicated Dior Wellness Experts working in perfect coordination, this synchronised approach ensures a seamless and impeccably refined result. Simultaneous treatments allow guests to indulge in the full experience with maximum comfort and efficiency.

This seamless fusion of makeup, hair, and hand care ensures a state of elegance and serenity, preparing each guest to shine effortlessly throughout the evening.

HOLISTIC THERAPIES

GROUNDING MOVEMENT THERAPY

60 MIN

Benefits: Reconnection | Tone | Tension release

Set within the serene calm of Hotel Cipriani, this grounding, multisensory wellness experience unfolds as a gentle dialogue between movement, breath, and nature. Thoughtfully designed by Global Dior Wellness Expert and Mindful Movement coach Bryony Deery, the session invites guests to slow down, promote body awareness, and cultivate a sense of deep inner renewal.

Guests are guided through slow, intentional Pilates-based sequences, gently awakening the muscles, promoting a sensation of ease throughout the body, while enhancing coordination and balance.

Breathwork weaves through the experience from beginning to end. Guided breathing at the opening gently settles the nervous system, while pranayama techniques throughout movement deepen focus, release tension, and encourage fluidity.

A tea ceremony follows, supporting a sense of grounding, hydration, and a smooth re-entry into the rest of the day.

To extend the benefits beyond the practice, guests receive access via QR code to a slow Pilates class and a nervous system unwind by our expert Bryony Deery. This video featured alongside a curated sound bath playlist are proposed to revisit the sense of calm at home.

SELF-ALIGNMENT CRUISE

120 MIN

Benefits: Clarity | Regulation | Harmony

Carefully curated by Global Dior Wellness Expert in Nutrition & Functional Medicine, Rose Ferguson, this wellness cruise on the Venetian lagoon invites guests into a state of calm reflection guided by the gentle rhythm of the water. From the moment the boat drifts away, the pace softens, creating the sensory space to feel and to simply arrive in the present.

The experience begins with a guided journaling ritual, an intuitive moment where thoughts and emotions are gently released onto paper. This act of writing becomes a space for honest observation, where clarity emerges naturally and intentions begin to take shape.

After clearing their minds, guests are guided through a visualisation exercise, first reconnecting with their physical body. They are then invited to sense the elevated emotions that would arise if their aspirations were already lived, allowing manifestation to be felt rather than simply imagined.

A sensory meditation follows to integrate this heightened state. Guests are encouraged to observe both mental and physical shifts with softness, before opening their eyes to contemplate the water surrounding them.

As the experience draws to a close, senses are gradually reawakened through taste thanks to light Venetian drinks along with healthy functional snacks.

A sense of inner harmony lingers, supporting not only a sense of wellbeing and vitality, but the kind of effortless radiance that emerges when body, mind, and environment move in synergy.
