# - CHAPTER I -

*Where it all began*

In 1842, Anna Russell, the 7th Duchess of Bedford, while visiting at Belvoir Castle, asked that a tray of tea, bread and butter, and cake be brought to her room at around 4pm, as dinner was served so late. She took to inviting friends to join her and by the 1880s, Afternoon Tea had become a fashionable way to entertain.

At the time, there were no fine hotels in Cape Town, and Sir Donald Currie, owner of the Union Castle Shipping Line, set out to rectify the situation for his First-Class passengers. The Mount Nelson opened on the 6th of March 1899, meeting Sir Donald's dream of being as stylish and elegant as the most fashionable hotels in London.

The Afternoon Tea service was first introduced at the Nellie in November 1989, and served in the lounge from the majestic Windsor Table.

With more than 60 carefully chosen fine, loose-leaf teas from across the globe, a unique coffee experience, and a sumptuous array of sweet and savoury delicacies, "tea at the Nellie" has become a much-loved Cape Town tradition.

*Through the ages*

The layout of the Mount Nelson Hotel gardens can be traced back almost 180 years to when Hamilton Ross, a prosperous financier, acquired the property. John Ross, his nephew, was a keen landscape gardener, who transformed the surrounding farmland into an elegant estate with trees, an orchard, vineyard, aviary and even a deer park.

The meandering paths are sheltered by the dappled shade of heritage trees, some of which have stood guard for centuries. The ancient oak, for example, was planted by Willem F. van Reede van Oudtshoorn, a Dutch aristocrat who owned this tract of land in 1795. The sinuous wild olive is also around 200 years old. Marching up the grand entrance are Canary palms that were planted in 1925, in honour of a visit from the then Prince of Wales.

These trees have borne silent witness to the many guests who have found peace in the Nellie gardens, including John Lennon, who loved to meditate here.

A special Mount Nelson rose has been bred and is planted throughout the gardens. It is, of course, pink, the colour that is now synonymous with the hotel, thanks to a grand gesture by one of the former general managers.

In 1918, Aldo Renata Tagliavia wished to mark the end of the First World War in a memorable way. He discovered that pink was symbolic of peace, and painted the hotel in that colour to welcome home returning soldiers. The Mount Nelson has remained pink ever since, and even has its own Pantone shade.

*The perfect pairing with Craig Cupido*

Mount Nelson is home to South Africa's first expert-trained tea sommelier. Head Sommelier Craig Cupido is passionate about tea and has an abiding appreciation of this time-honoured tradition.

"I have always felt that tea is about connections; to the people you are enjoying it with and the places it comes from," he says. "I love sharing its many positive properties with the guests and helping them choose the ideal tea to pair with a chosen dish. Many are surprised to find how well tea complements fine dining."

Craig is committed to sharing his knowledge and skilling his peers about the art of tea sommeliering so that every guest receives a curated Afternoon Tea experience.

Craig and Vicky, the Mount Nelson Executive Pastry Chef, have curated a menu that presents delicious delicacies from the tea service, with a perfectly matched global tea pairing.

### *South African teas*

South Africa has a number of indigenous teas, notably rooibos, honeybush and buchu. All three derive from the distinctive, endemic vegetation known as fynbos, and all are noted for their health-giving properties. The most famous, globally, is the fragrant, vermilion rooibos tea, which has been made and enjoyed for aeons by the people of the Cape. The Afrikaans name translates as “red bush” and references the colour of the mature leaves. Green rooibos comes from the same plant, but the leaves are dried directly after harvesting.

#### **MOUNT NELSON 125 YEAR BLEND**

Playful, caffeine-free and invigorating, it is a blend of Rooibos, Honeybush, Mesquite and Apple, a skilful homage to South African infusions. Baked mesquite sourced from the Great Karoo gives the tea its creamy taste, and the grassiness is thanks to the green rooibos from the Western Cape and green honeybush from Eastern Cape. Apples from the Cederberg mountain range add a touch of sweetness to the blend. And of course, there are the ubiquitous pink rose petals, offering a floral fragrance that exudes the elegant energy of the hotel.

#### **AFRICAN PRIDE HONEYBUSH**

Honeybush tea flavoured with marula and caramel, it is well rounded, sweet and full-bodied.

#### **BLOOD ORANGE ROOIBOS**

## **HONEY BUSH**

Indigenous to the fynbos kingdom of the Western and Eastern Cape, honeybush has woody floral notes, with the fruitiness of lemon and oranges, and the nutty sweetness of honey and caramel.

## **LAVENDER MORINGA**

An energising, vibrant, creamy and grassy tisane.

The selection highlights the creative expertise of our pastry chefs, led by Vicky Gurovich. A celebrated and award-winning pastry chef, Vicky ensures that Afternoon Tea at Mount Nelson fulfils its legendary status as the most celebrated and sumptuous tea service in Africa.

She once told “Eat Out”, one of South Africa’s top food guides, why she finds pastry rewarding: “It’s very scientific, meticulous, and you still have great freedom with flavours. All fresh ingredients are fair game.” And the secret to her exquisite confections? “I think if I can recreate a happy moment from childhood, then I’ve done my job. My top tips for home bakers are that butter and eggs must be room temperature for baking, and always put alcohol in the malva pudding!”

Fairly recently, Vicky chose to come back to the stunning Cape and rejoin the renowned Mount Nelson establishment. This provided the skilled pastry chef with the opportunity to craft a delightfully light, vibrant, and utterly irresistible Afternoon Tea menu.
