A BELMOND HOTEL  
OXFORDSHIRE

## les Vins

### du Manoir aux Quat' Saisons

Dear Guest,

To allow you to share more precious time with your loved ones, we reduced the wine list. It has been reduced from 1200 to 700 references. For 2021 I believe in following a similar path, we will continue to concentrate on quality and purity.

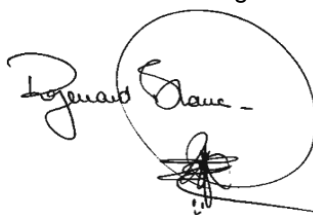

2020 marks the beginning of a quest for natural chemistry between wine and nature. From early on, my philosophy always led me to source the most authentic ingredients for my cuisine and your enjoyment while making sure it is healthy too. I feel it is vital we do the same with what we drink.

Today we hear various messages from the wine industry, confusing concepts of sustainability with "viticulture raisonnée", "organic", "biodynamic", "vin naturel" (natural wine) and so forth. All are certified by different official bodies around the world, where rules apply differently according to the region.

This raises so many questions about health and wine qualities as experts are contradicting each other. It is our quest to understand what chemicals are used in wines, their concentration, and ultimately their impact on our health. This is a minefield as it has been kept secret - until now!

We trust the best great little producers we encounter on our quest, always ensuring our selection displays wines that are as natural as possible, with less sulphur among other things and we wish to learn more about what is really added to our wine.

We welcome your comments to ensure we are making the right selection for you.

**Biodynamic wines are marked with  $\beta$**  For a vineyard to be considered biodynamic the vine-grower must follow the organic criteria plus some or all of the philosophies first voiced in 1924 by Rudolf Steiner. Steiner was an Austrian cultural philosopher, social reformer and spiritual scientist: a genius who also worked on artistic media, drama, education methods, architecture and finally agriculture. On request of the Austrian farming industry he produced a series of lectures on an ecological and sustainable approach to agriculture that increased soil fertility without the use of chemical fertilizers and pesticides. His idea was to apply a holistic approach to the farm wherein every organism contributes and has part to play in the "circle of life". The farm should encourage biodiversity, be self-sustainable and resist monoculture through cultivation of a variety of plants. It combines a planting, sowing, harvesting and pruning regime determined by the position of the sun, moon and planets.

**Organic wines are marked with  $\odot$**  Organic wine is wine made from grapes grown in vineyards that exclude the use of synthetic chemicals fertilizers, herbicides, fungicides and pesticides. The idea is that the best grapes possible are used in the manufacture of the wine. The soil is respected and biodiversity of the environment is encouraged. Vines grow in soil rich in worms, insects and bacteria. Cover crops of mineral rich leguminous plants, herbs and flowers are grown. This results in soil being full of nutrients and trace elements that the vines can take up. The vines are also stronger, healthier and more resistant to disease. Natural predators are added to the vineyard: ladybirds to tackle aphid problems, insectivorous birds to eat spiders or beetles, and chickens, emerging from mobile chicken coops placed around the vineyard, to eat grubs and vine weevils from the ground.

**PLEASE NOTE ALL WINES AND VINTAGES ARE SUBJECT TO AVAILABILITY AND MAY CHANGE.**

# Veuve Clicquot

■ REIMS FRANCE ■

Since its creation in 1772, Veuve Clicquot has played an instrumental role in establishing and evolving the Champagne industry as we know it today. The House owes its extraordinary reputation to a remarkably modern woman: Madame Clicquot. Married in 1798 to François Clicquot, owner of a champagne business, and widowed at 27, she took control of the business and became known by her peers as “La Grande Dame de la Champagne”. Located in Reims, France, the Veuve Clicquot Vineyard is one of the foremost in the Champagne region, both in size and quality. It covers 382 hectares, spread over 12 of the 17 Grands Crus and 18 of the 39 Premiers Crus.

# Beers and Ciders of Le Manoir

When we started to think of a new beer selection for Le Manoir aux Quat'Saisons, we knew we wanted the best. We searched far and wide looking for the best beer available to complement our cuisine. After studying many styles of beer and looking at many different breweries we decided to showcase artisans within our nation and across the world. The following beers highlight the fantastic work being done by breweries around England. They translate our beliefs in nothing added and nothing taken away.

## Beers

### England

Curious IPA, Curious Brewery, Kent	£9.00
Haus Lager, The Cotswold Brewing Company, Gloucestershire	£9.00

### United States
