A photograph of a tropical garden path. The path is paved with dark, smooth stones and leads into the distance. On the right side, there is a low, rustic stone wall topped with various plants, including several tall, columnar cacti and agave-like plants. The background is filled with numerous palm trees of different varieties, some with thick, gnarled trunks. In the distance, a pink building with white window frames and balconies is visible. The overall scene is bright and sunny, with shadows cast on the path.
